

# Don't forget your Bible

Where does reading the Bible fit into your life? For a very old book, it is still relevant for us as God's children. It is a critical resource for our faith, and how we use it reflects our desire to know our Heavenly Father's will. Sometimes, though, it spends more time as a decoration on a coffee table than it does being explored. Holy Scripture is the foundation for the

New Apostolic doctrine, and is the starting point and basis for every sermon. It behooves us then to examine this foundation. Just as the living word in our sermons is tied to the Bible, the Bible is tied to the living word. Both work together and deepen one another; after all, the Holy Spirit inspired both. Only concerning ourselves with one or the

other would decrease the full value we can obtain by engaging both. So, "Don't forget your Bible"! Purposefully set aside time to read and contemplate it. Read it with your family, discovering together new insights and connections to our lives. You can bring it with you too!

Already checked Facebook 5 times today and there's nothing new? Check the Bible.

See what God wants to share with you. And just one more point: bring it with you to church! Open it up and read along when a verse is referenced in the sermon, or mark the pages for further reading later. What a wonderful way to refresh the sermon in us by re-reading the Bible verses that were used. Let's all make the Bible a more integrated part of our lives!

### **Hey, that chalice looks different!**

We have a new Baptismal chalice. It stands a little taller and is distinct. This will help to emphasize a new believer is joining our community! Read about it in the Winter 2018 Vision newsletter.

## *What's coming up...*

**THRIVE**  
a way of life...

*THRIVE – Each letter stands for something*

**T**ransform your nature, using Jesus as your example...

Jesus was fully engaged at the Last Supper, and today in Holy Communion.

**How engaged and present are you?**
